Work Smarter.

Basic Heavy Equipment Operator

Northern Wisconsin needs heavy equipment operators!

Employment opportunities are available for Heavy Equipment Operators in forestry, construction, highway maintenance, manufacturing, and other industries. Find out what local employers are looking for and gain knowledge and skills needed for initial employment. In this program, you'll learn about safe work practices, protective clothing, site preparation requirements, and how to perform basic equipment maintenance, adjustments, and repairs.

When: **Wednesday, April 12 – Friday, May 12, 2018**
